DESCRIPTION

The ARTEC-510A incorporates a single 10" loudspeaker for low frequency reproduction. The 720 W peak power of the Class D amplifier provides extended bandwidth, improved dynamic range and exceptionally low distortion-features hard to find on other systems in this market segment. The DAS 10P loudspeaker provides accurate low frequency reproduction. High frequencies are handled by the M-60N compression driver with 1" exit and titanium diaphragm offering excellent performance. The birch plywood cabinet construction offers an ultra-compact design which is available in black or white.
